

The production was originally constructed in 1991. Very little information exists regarding the original production, fabrics, sizing etc. As the production aged, some redesign and rebuilding has been done.

1. Do not remove any tags sewn into garments.

written consent of Opera Carolina. Additional trims embellishments etc must be removed before shipping costumes back.

3. Cleaning instructions have been included in the breakdown sheets however it is preferred that Opera Carolina only clean all costumes. Renters will be charged for the full replacement cost of garments damaged through cleaning. If necklines/collars must be cleaned of make- up use a mild soap such as Sunlight bar soap on inside only. Do not scrub the right (good side) of the garment, as abrasion will ruin many of the fabrics.

4. Please bag and clearly mark all unused costume pieces.

5. Please pack costumes in the crates as sent. Pack collars, cuffs etc. flat with wrong sides together to reduce makeup rubbing onto the good side of the fabric. Pack Masks with the same packing materials it arrives in.
